Make a connection to Life®

ConnectADock

@floatingdocks

To determine which Connect-A-Dock Series is best for you, ask yourself a couple of questions:

How am I going to use my dock?

What is the size of the body of water in which my dock will be installed?

1000 Series (LP) has an 8" (20.32 cm) freeboard which is perfect for smaller watercraft.

2000 Series (HP) has a 17" (43.18 cm) freeboard and is designed for larger watercraft.

Find a Connect-A-Dock® dealer on-line to help determine the best series for you.

Personal Paddle Sport Launch - Kayaks, Canoes & Paddleboards

Create a safe/stable cradle for your Kayak

YAKport is a personal paddle sport launch providing a safe and stable cradle for boarding and unloading. Simply place your favorite paddle sport vessel on YAKport and enjoy a sure footed and stable entry right above water level. Then tug yourself into the water with very little effort. Once your paddling session is over, pull right back onto YAKport and enjoy the same stability and convenience while getting out.

Connect to floating or fixed docks

Keep your water fun on an “even keel” with Connect-A-Port 2XL!

The Connect-A-Port 2XL is the PWC docking for you. Universal hull support makes docking personal watercraft easier with the added length over the original Connect-A-Port and Stoltz Keel & more Bow rollers. Idle up to dock...roll off to launch. PWC Docking adds a safe harbor for your one-, two- or three-seat personal watercraft. Connect to the 2000 Series docks, floating docks or fixed docks.

SWIMMING, BOATING & FISHING

A lifetime of waterfront adventures your family with the Connect-A-Dock floating dock system. Easy to install and virtually maintenance-free, the modular sections can be configured to build docks for boating, rowing, fishing, swimming, and anything else you can imagine. Then, the sections can be reconfigured into other options season after season, so there's no limit to the possibilities. Perfect for home, parks, and resorts.

Connect-A-Dock floating dock system will help you create many family memories of safe and enjoyable fun around the water! Stable, completely versatile and extremely durable, the Connect-A-Dock system is easy to install and virtually maintenance-free. The modular float sections can be assembled into a variety of attractive configurations, then rearranged, season after season.

2800 lbs (1270kg)
Model:
FS1120

Connect-A-Dock is engineered with a skid-resistant surface that repels both water and the sun's extreme heat. The molded polyethylene construction ensures everyone will enjoy a splinter-free and nail-free time on the dock.

1000 Series is the logical choice for extending your waterfront enjoyment providing the ultimate versatility in configuration, simple installation and extreme durability. Designed for maintenance-free use as a floating boat dock and platform, the 1000 SERIES - (LP) is best suited for smaller bodies of water or coves that are protected from large waves.

The **modular connection system** allows you to configure, rearrange and expand your dock in an unlimited variety of shapes and sizes.

However You Connect It — Make It Your Own

- Modular design
- 8" (20.32 cm) freeboard
- Easy to install
- Wood grain anti-skid surface
- UV protected
- Environmentally friendly
- Salt water safe

90" x 120" Float Section

90" x 120" x 10"
(228.6 cm x 304.8 cm x 25.4 cm)

FS1120

The primary component of the slip fit connection system.

45" x 60" Float Section

45" x 60" x 10"
(114.3 cm x 152.4 cm x 25.4 cm)

FS1060

The primary component of the slip fit connection system.

45" x 30" Float Section

45" x 30" x 10"
(114.3 cm x 76.2 cm x 25.4 cm)

FS1030

A smaller float section that is half as big as the FS1060, when a little more length is needed.

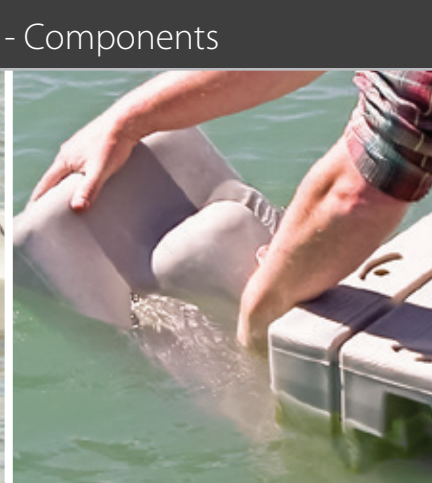

Corner Float Section

44" x 33" x 10"
(111.8 cm x 83.8 cm x 25.4 cm)

CFS1010

Adds strength, stability and extra walking space to the fingers of your dock.

Float Connector

5.5" x 5.1" x 6.68"
(13.97 cm x 12.95 cm x 16.97 cm)
FC1020

Slip fits into the Float Section sockets to hold the sections together.

2" Pole Connector

10" x 6" x 10"
(25.4 cm x 15.24 cm x 25.4 cm)
PC1010

Slips into the outer sockets of the dock and used for anchoring.

2" Pole Cover

41"
(104.14 cm)
PC1002

Improves appearance of anchoring poles.

Extra Flotation

29.5" x 14" x 9.5"
(74.9 cm x 35.5 cm x 24.1 cm)
EF1010

Slips under dock to provide extra flotation where needed.

Accessory Connector

3.5" x 6" x 9"
(8.89 cm x 15.24 cm x 22.86 cm)
AC1000

Accessories can be attached to this handy connector.

Finishing Connector

2.5" x 6.2" x 9.3"
(6.35 cm x 15.75 cm x 23.6 cm)
FC1000

Fill the outer connector sockets of your dock for a finished look.

Cleat

7" x 1.35"
(17.78 cm x 3.43 cm)
8C1020

Keeps your watercraft tied near the dock.

Solar Cleat

8" x 2.125"
(20.32 cm x 5.397 cm)
LL-SCL-CAD

Secure your boat & light up the dock edge.

Dual Cleat

11" x 2.25"
(27.94 cm x 5.72 cm)
DC2000

Connect the stainless steel cleat at two connector points.

Commerical Kayak Launch

Connect-A-Dock launch system provides a safe and convenient way to access your kayak or canoe. Simple to launch and retrieve using Stoltz rollers and entry assist rails. Attaching to the 1000 Series low profile dock system it provides a floating platform that adjusts to changing water levels.

- Convenient to use for people of all skill levels
- Slip resistant surface
- Accessible from all sides
- Expandable to accommodate all size kayaks and canoes
- Superior stability
- Dry launch and retrieval

Kayak Assist

31.3" x 44.5"
(79.5 cm x 113.03 cm)
KA1000

Help getting in and out of kayaks or canoes.

Kayak Rack

6' x 18.25"
(182.9 cm x 46.36 cm)
KR1020

Store two Kayaks on your dock.

Fish Cleaning Station

38" x 18" Top
(96.5 cm x 45.7 cm)
FCS1020

Dress fish at the waters edge after a day of fishing.

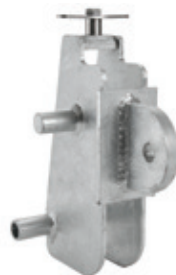

**1000 Series Metal
Accessory Connector**

4.5" x 5.5" x 10"
(11.4 cm x 14 cm x 25.4 cm)
4-5487

Add accessories to dock sections or connect to other docks.

**1000 Series Connector
Male Hinge**

6.5" x 5.5" x 10"
(16.5 cm x 14 cm x 25.4 cm)
4-5488

Attach 1000 Series float sections to other docks at different heights.

Female Hinge

5" x 3" x 12.75"
(12.7 cm x 7.6 cm x 32.4 cm)
4-5024

Attach 1000 Series float sections to other docks.

5 x 5 Hinge

5" x 5" x 3.5"
(12.7 cm x 12.7 cm x 8.9 cm)
5x5 Hinge Male - 4-5025
5x5 Hinge Female - 4-5023
Pin/Clip - 401-5026

Attach 1000 Series float sections to other docks.

*Parts sold together or separately

Swim Ladder

21" x 86"
(53.34 cm x 218.44 cm)

HOME & COMMERCIAL DOCKS

A season's worth of adventures awaits with your floating dock, including parties, sunbathing, swimming, fishing, and boating. A Connect-A-Dock system will prove to be a worthwhile addition to the value of your property. Commercial applications use the 2000 SERIES - (HP) dock because of its modularity.

These docks can be expanded to any width or length, making it easy to accommodate customers with additional docking slips or re-configuring for various-sized boats. Stable, completely versatile and extremely durable, the Connect-A-Dock system is easy to install and virtually maintenance-free. The modular float sections can be assembled into a variety of attractive configurations, then rearranged season after season.

Color:

Model:
FS2120

Connect-A-Dock is engineered with a skid-resistant surface that repels both water and the sun's extreme heat. The molded polyethylene construction ensures everyone will enjoy a splinter-free and nail-free time on the dock.

Connect-A-Port PWC Drive On adds a **safe harbor** for your one-, two-, or three-seat personal watercraft! Docking is easy with the unique bow stop. Launching is a breeze with the keel and bow rollers — just roll off and you are ready to go!

2000 Series creates a **substantial and attractive** presence on the waterfront. Its modular design and rugged construction make Connect-A-Dock the simplest, most reliable way to build floating decks and boat docks for larger boats at home, in resorts and at marinas. Use it to provide safe and enjoyable access to the water for your **family, customers and the community!**

Utility Channel - Straight
49.56" x 24" x 20"
(125.88 cm x 60.96 cm x 50.8 cm)
UTC2048

Add water, electrical or sewer conduit lines.

Utility Channel - Corner
47.91" x 47.91" x 20"
(121.7 cm x 121.7 cm x 50.8 cm)
UTC2048

Utility Channel - Cube
23.81" x 24" x 20"
(60.47 cm x 60.96 cm x 50.8 cm)
UTC2024

Harbor Light
42.5" x 11.125" x 11.125"
107.95 cm x 28.26 cm x 28.26 cm
HL301000
Add water, electrical lines

Marina Mate SS
30" x 7" x 7"
76.2 cm x 17.78 cm x 17.78 cm
MMSS2050
Add water, electrical lines

Fire Station
42.5" x 11.125" x 11.125"
107.95 cm x 28.26 cm x 28.26 cm)
FS1020
Created as a complete solution for fire and rescue needs

Bayside Utility Center
14.5" x 11" x 10.625"
36.83cm x 27.94cm x 61.29cm
BU3050
Host to a variety of electrical services, contained in a compact yet strong housing

Flag Pole

FP2000

Pole Bracket

PB2020

Accessory Connector-Metal

AC2022MTL

Telescoping Flag Pole - 10', 15' or 20'.

Swim Ladder

21" x 86"

(53.34 cm x 218.44 cm)

SL2000

Helps you get out of the water easily
Ladder is retractable.

Solar Cleat

8" x 2.125"

(20.32 cm x 5.397 cm)

LL-SCL-CAD

Secure your boat & light up
the dock edge.

Cleat

7" x 1.35"

(17.78 cm x 3.43 cm)

8C1020

A strong, secure tie off for your mooring lines.

Fish Cleaning Station

38" x 18" Top

(96.5 cm x 45.7 cm)

FCS1020

Dress fish at the waters edge after a
day of fishing.

Stationary Swim Ladder

27" x 59.25"

(68.6 cm x 150.5 cm)

SL1020

Dual Cleat

11" x 2.25"

(27.94 cm x 5.72 cm)

DC2000

Connect the stainless steel
cleat at two connector
points.

2000 Series Bench

48" x 22" x 38.5"
(121.92 cm x 55.88 cm x 97.79 cm)
BH2000
Take time to sit back and enjoy life on your bench!

Kayak Rack

6' x 18.25"
(182.9 cm x 46.36 cm)
KR1020
Store two Kayaks on your dock.

Edge Bumper

2.5" x 3.5" x 8'
(6.35 cm x 8.89 cm x 243.84 cm)
EB1020
Wheelchair edge bumper.

Piling Pole Cap

In Black or White
Sizes: 2", 3", 4", 6", 8", 10" or 12"

Female Hinge

5" x 3" x 12.75"
(12.7 cm x 7.6 cm x 32.4 cm)
4-5024
Attach 1000 Series float sections to other docks.

2000 Series Metal Accessory Connector

7" x 8.125" x 17.125"
(17.78 cm x 20.64 cm x 43.18 cm)
4-5679
Add accessories to dock sections or connect to other docks.

Self-Wicking Planter

10" diameter x 11.625"
(25.4 cm diameter x 29.5 cm)
SWP1020
Enjoy your favorite flowers and plants while you relax on your dock.

5 x 5 Hinge

5" x 5" x 3.5"
(12.7 cm x 12.7 cm x 8.9 cm)
5x5 Hinge Male - 4-5025
5x5 Hinge Female - 4-5023
Pin/Clip - 401-5026
Attach 1000 Series float sections to other docks.
*Parts sold together or separately

Floating Dock to Dock Bracket

FDA2022MTL
Connect 2000 Series float sections to other docks.

Rectangle Dock Box

48.25" x 26.5" x 29"
(122.6 cm x 67.31 cm x 73.7 cm)
DBT8006
Extra heavy duty construction in our Dock Box with lockable, reinforced cover.

Dock Box Corner

48.25" x 28" x 30"
(122.6 cm x 71.12 cm x 76.2 cm)
DBT8000
Cover restrained with stainless steel cables.

Small Rectangle Dock Box

36" x 26" x 20"
(91.44 cm x 66.04 cm x 50.8 cm)
DBT8002
Long term ultraviolet inhibitors protect against sun rays

PowerHouse - Dock Box Corner

50" x 29.5" x 32.5"
(127 cm x 74.93 cm x 82.55 cm)
DBT8004
Plenty of storage space

Large Corner Dock Box

59.25" x 34.5" x 28.5"
(150.34 cm x 87.63 cm x 72.39 cm)
DBT8011
Lockable, reinforced cover & easy to assemble nylon hinges with stainless steel hardware.

Away With Geese

AWG1020 - Land
AWGW1020 - Floating
Disrupts geese sleep patterns causing them to move to another pond.

44" Guardrail

44" x 40"
(111.76 cm x 101.6 cm)

GR2044

Color: brown or white
(2 AC2000 Accessory Connectors and Hardware included)

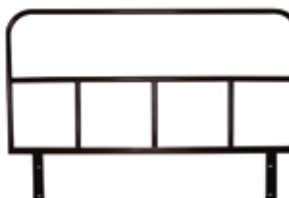

67" Guardrail

67" x 40"
(170.18 cm x 101.6 cm)

GR2067

Color: brown or white
(2 AC2000 Accessory Connectors and Hardware included)

92" Guardrail

92" x 40"
(233.68 cm x 101.6 cm)

GR2092

Color: brown or white
(2 AC2000 Accessory Connectors and Hardware included)
Strong powder coated, steel guardrails.

Solar Light

3.36" x 1.68 x 7.73"
(8.54 cm x 4.27 cm x 19.6 cm)

SLD1020

Light up the dock edge at night.

Solar Pole Light

LL-SKL-IR

When motion is detected the super bright LEDs light your dock. 12-watt solar panel with a 5-watt LED
* Pole not included

2" Bracket Receiver Bolt On

40-5922

Will accept 2" od square tubing.

2000 Series Clamp Connector

40-5923

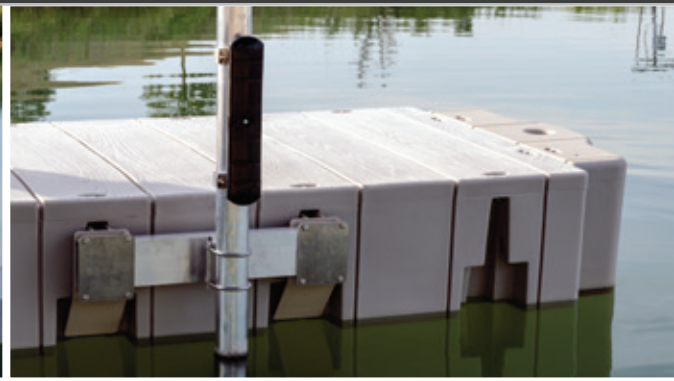

Increase clamping force on the connector socket.

Dock Roof

Protect your boat and other watercraft investments from harmful UV Rays. Construct a roof system for your new or existing dock. Contact your local dealer or the manufacturer for more information.

- Galvanized steel frame
- Available for home or commercial use

We've Got You Covered...

Protect your floating boat slip with a genuine canopy frame and cover. This new kit will allow most ShoreStation model canopy frames to be attached directly to a Connect-A-Dock 2000 Series-High Profile Floating Dock, protecting your boat from the elements. The sturdy aluminum framework will not rust and adds stability to your floating dock.

Easily attaches directly to your
Connect-A-Dock 2000 Series - High
Profile Floating Dock

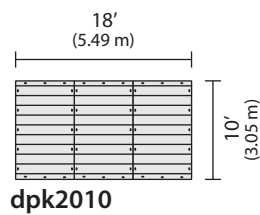

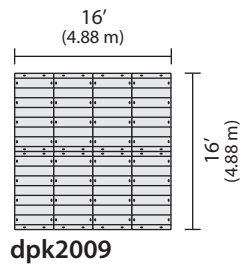

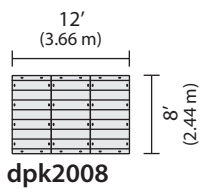

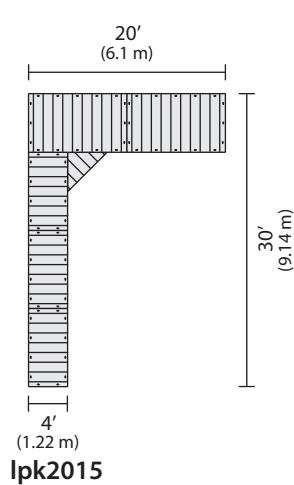

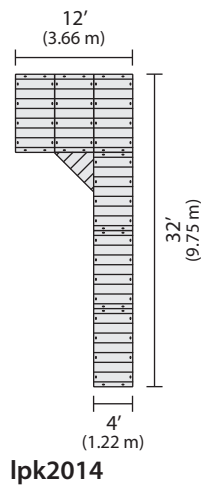

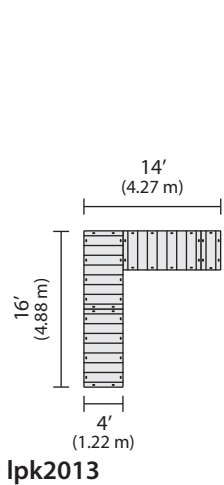

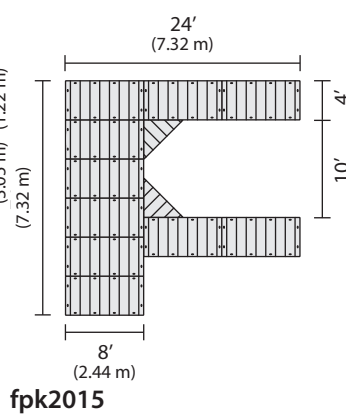

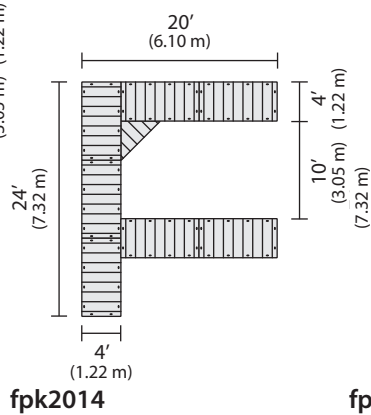

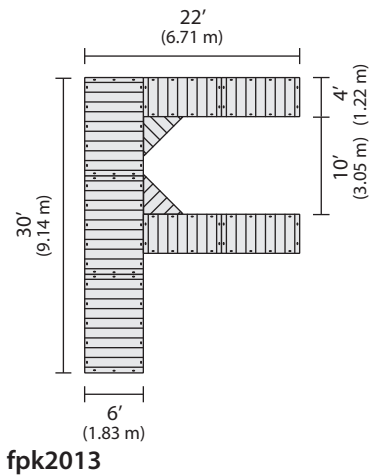

Canopy Frame Support Kit Includes:

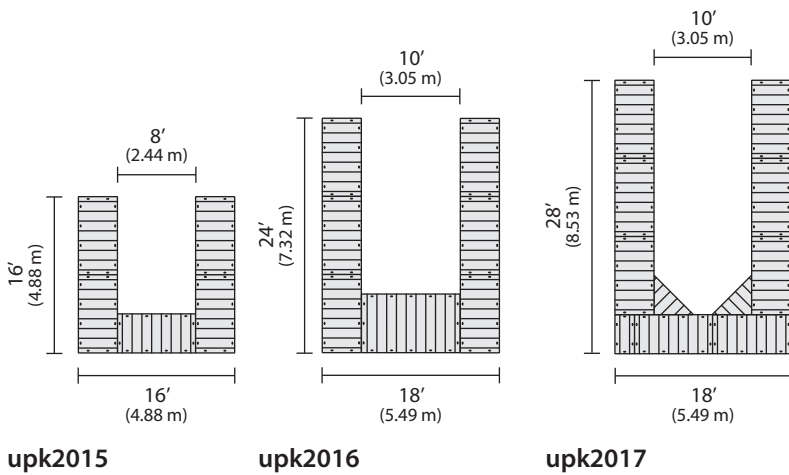

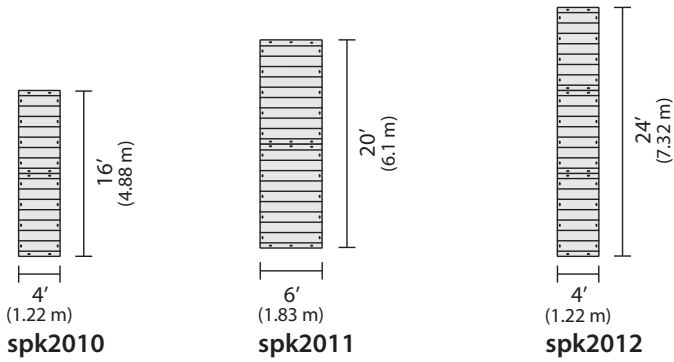

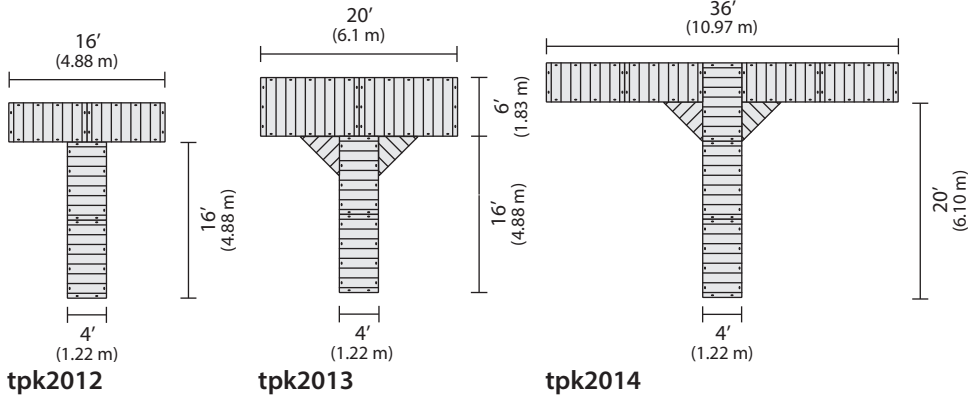

- 2 Support posts with crossbrace
- 2 boat bumpers
- 2 floating dock accessory connector weldments
- Connecting hardware

The DA0074 Canopy Support Kit is adjustable for use with 120", 132" & 144" wide canopy frames.
NOTE: Two kits are required to support most canopy frames. Three DA0074 kits will be required when using canopy frames 26' and longer. Canopy & cover sold separately.

Mix, rearrange or change — Add a Gangway, Bench, PWC Drive On & More

Go online to see a list of individual package components

Stiff Arm

Note: Dock anchoring methods listed in this book are only suggestions. It is up to you to determine which method suits your needs.

Unless stated, anchoring items can be used for both 1000 SERIES (LP) & 2000 SERIES (HP) dock systems.

Stiff Arm Fittings

2" (5.08 cm) Id pole
SAF1020
Connects a pole to the permanent land fitting and the Stiff Arm Bracket.

Stiff Arm Bracket

SAB1020
Attaches to the side of the dock and provides slot for Stiff Arm Fitting.

Sea Tech Anchor

Jet Ski Mooring

SK JET
The "Skrew" anchoring respectful of the sea-beds ecology

Pole Pounder

2" & 3" pipe
(5.08 cm & 7.62 cm)
PP1002
Makes driving poles easy.

Pole Remover

2" & 3" pipe
(5.08 cm & 7.62 cm)
PR1002
Makes pulling poles easy.

2" Pole Auger

2" id pole (5.08 cm)
PA1002
Attaches to poles for easy anchoring.

Gangway

Roller Kit

2" x 10.5" x 3"

(5.08 cm x 26.67 cm x 7.62 cm)

RK1020 - (sold in pairs)

Allows gangway to roll on the dock in fluctuating waters.

Gangway Hinge 44"

44" x 4" x 1/8"

(111.8 cm x 10.16 cm x 0.32 cm)

GH2010 - Stainless Steel

* Also available in Galvanized

Enables connection from gangway to dock and allows the gangway to fold 180° (wood plank not included).

Gangway Hinge 54"

54" x 8"

(137.16 cm x 20.32 cm)

GHGW5

* Used only with GW1024,

GW1028, or GW1032

Gangway Hinge 56"

56" x 6.94"

(142.24 cm x 17.63 cm)

GH2156 - Stainless Steel

* Also available in Galvanized

Piling Loop

10" (25.4 cm) Piling Loop

PL1010

Lets your dock ride on the pilings of a pier or other piling structures. Perfect for fluctuating waters.

Other piling loop sizes:

12" (30.48 cm)

PL1012

14" (35.56 cm)

PL1014

16" (40.64 cm)

PL1016

18" (45.72 cm)

PL1018

Chain

Deep Water Hardware

1000 Series

DW1010

Anchors a dock or Swim Platform in deep water.

2" Dead Man Collar

1000 Series

DM1002

2000 Series

DM2002

Use with Pole Connector to anchor any dock in deep water with chain and weight.

1000 Series - Low Profile

ALL SPECIFICATIONS PROVIDED BY CONNECT-A-DOCK ARE BASED UPON CONNECT-A-DOCK TEST DATA AND ARE PROVIDED WITHOUT REPRESENTATION OR WARRANTY. ACTUAL SPECIFICATIONS, WEIGHTS AND DIMENSIONS MAY VARY FOR A VARIETY OF REASONS, INCLUDING, WITHOUT LIMITATION, DUE TO THE ROTATIONAL MOLDING PROCESS. SPECIFICATIONS SHOULD BE REGARDED AS NOMINAL VALUES ONLY AND NOT AS BINDING.

Note: Dock anchoring methods listed in this book are only suggestions. It is up to you to determine which method suits your needs.

Storage-Winterization: When storing the Connect-A-Dock outside, the walking surface of the dock needs to face up. If stored upside down, water can get inside the docks through vent holes that allow air expansion.

Cleaning: For low maintenance cleaning, use a stiff broom or brush and a garden hose. A pressure washer with no heat can also be used. When using soap, use an environmentally safe product.

Note: All plastic has an inherent tendency to create static electricity. If you have a concern, please contact Connect-A-Dock.

Stainless Steel: Connect-A-Dock products use marine grade stainless steel for stainless steel metal components. Stainless steel may stain, discolor or attain an adhering layer of grime under normal service, and, especially, when used in salt water conditions. Any contamination of the metal surface by dirt or other material can reduce corrosion protection. Some corrosion can also occur when stainless steel comes in contact with dissimilar metals. The removal of dirt, grime, and surface stains that occur during normal handling and exposure to the elements is essential for optimum corrosion resistance to prevent surface staining (corrosion) or pitting. Dirt, grime and surface stains that occur during normal use and exposure to the elements should be cleaned with warm water with or without a gentle detergent, soap, or ammonia. (Caution, do not use ammonia near anodized aluminum). Persistent stains can be removed with mild, non-scratching, abrasive powders such as typical household cleaners used with warm water and a bristle brush, sponge or clean cloth followed by a rinse with clean water then wiped dry. Stubborn stains can be removed by using a damp cloth and a commercial stainless steel cleaner and polish. Rubbing lightly in the direction of the polish lines on the stainless steel, then rinsing with clean water and wiping dry.

Installation: A 1000 or 2000 Series dock should not be placed in areas with constant waves in excess of 12 inches in total wave height, as measured from crest to trough. Please note that placing a dock in an unsuitable location may void any warranty provided by Connect-A-Dock Inc. or your local distributor or dealer if you have any questions regarding the suitability of your particular dock location.

Quick and easy installation!

Assembly only takes a few hours!

You don't have to get into the water!

The Connect-A-Dock floating dock modules are easy to connect to each other using only a few bolts in just minutes. The only tool you need is a 9/16th" (16 mm) socket wrench.

Time is precious — we believe you should be spending time enjoying your dock — not assembling it!

Contact Connect-A-Dock for the complete Warranty information

Low-maintenance, color-molded polyethylene resists oil, gas, UV rays and salt water, and won't rot, peel or splinter like wood. With a slip-resistant surface that sheds both water and the sun's extreme heat, you are assured long-term performance season after season.

CONNECT-A-DOCK Return Policy - U.S.A. & Canada - All products being returned to Connect-A-Dock are subject to a restocking fee of 25% of the total product cost. The buyer is responsible for all shipping costs incurred.

Please note that many of the products listed in this literature are protected by various United States and/or International patents or have patents pending. For a comprehensive list of our patents and the products covered please visit our website at www.connectadock.com/patents.htm. Manufacturer reserves the right to make changes without prior notice.
